

# HITANSHU JENA

7992836922 | jenahitanshu9@gmail.com | LinkedIn | GitHub | LeetCode

## SUMMARY

---

Highly motivated Developer skilled in building and maintaining robust backend systems using modern technologies including Java, Spring Boot. Experienced in working on RESTful APIs and database integrations with MySQL and MongoDB, and collaborating with cross-functional teams to ship features end-to-end. Quick learner with strong problem-solving skills and a willingness to continuously evaluate and adapt to new technologies and tools.

## TECHNICAL SKILLS

---

Java, Python, OOP, Spring Boot, WebSocket, React, HTML, CSS, JavaScript, MySQL, MongoDB, REST APIs, Microservices (basics), Git, Agile, Postman, Docker, Kafka, Redis, Junit, Swagger, Mockito.

## EXPERIENCE

---

### Backend Developer Intern — Infosys Springboard

Nov 2025 – Present

- Assisted in building and maintaining robust backend systems using Java and Spring Boot, delivering features end-to-end in an Agile sprint environment.
- Worked on RESTful APIs and database integrations with MySQL to ensure seamless communication between frontend and backend.
- Collaborated with cross-functional teams to define, design, and ship new features, taking the lead on backend development.
- Troubleshoot and debugged server-side issues across both development and production-like environments to ensure system reliability.
- Identified and fixed bugs and bottlenecks across the tech stack through peer code reviews and debugging sessions.

## PROJECTS

---

### Ecommerce App

Aug 2025 – Oct 2025

- Built and maintained robust backend systems using Spring Boot and MySQL, optimizing for performance, scalability, and security.
- Worked on RESTful APIs and database integrations, implementing JWT and RBAC to ensure secure and reliable backend services.
- Containerized services with Docker to enhance development efficiency, scalability, and consistent deployments.

### AI Interview App

Nov 2025 – Feb 2026

- Assisted in building a robust backend system using Spring Boot integrated with the Gemini model, continuously implementing new technologies to enhance functionality.
- Worked on RESTful API and WebSocket integrations to ensure seamless, real-time communication between frontend and backend.
- Collaborated to define, design, and ship a full-stack feature end-to-end, building a clean React UI with contextual AI replies based on user input.

## EDUCATION

---

### Bachelor of Technology in Computer Science and Engineering

Sep 2022 – Jun 2026

Gandhi Academy of Technology and Engineering (GATE), Odisha | CGPA: 7.62

- Ranked in the top 20% of the class; active participant in technical clubs and coding contests.

## ADDITIONAL INFORMATION

---

**Languages:** English, Hindi, Odia

### Certifications & Awards

- Java Programming Certificate
- Solved 200+ problems on LeetCode
- Semi-finalist in NMIET NextTech 1.0 Hackathon, Bhubaneswar
